

O'Live Cantilever Training Bar, Long

Cantilever training bar for O'Live rigs. The range includes 100 cm and 120 cm versions; this is the long model.

Product description:

Cantilever iron training bar with a textured black epoxy finish for a firm grip. Designed for installation on the crossbars of O'Live ONE and ONE+ rigs. Its slightly angled design allows two mounting heights depending on how it is attached to the structure. Made in Spain.
