

Wall Bar wooden O'Live Fitness, 270cm

Discover the versatile and useful tool you need for stretching and rehabilitation exercises. Designed to enhance your flexibility and facilitate recovery, this tool is ideal for both home and professional training environments.

Product description:

Made of high quality **pine wood**, with **beech crossbeams** that guarantee strength and stability, this tool offers a polished finish that ensures a smooth, **splinter-free** surface. This allows you to stretch comfortably, maximizing your results and minimizing the risk of injury. It includes galvanized anchors that provide reliable support, simplifying the installation process.

In addition, we offer you the possibility to customize your tool. Contact our consultants to explore options for different types of wood, lengths and varnishes, adapting the piece to your personal needs and tastes.

ready to enhance your exercise routine? Contact us today and find out how this essential tool can transform your stretching and rehabilitation experience!
