Mancuernas Pro Style de 12 Caras O'Live

O’Live Pro Style Elite Dumbbells – 12-Sided Design, Maximum Durability, and Professional Balance

Discover the new **O’Live Pro Style Elite Rubber Dumbbells**, featuring a **12-sided anti-roll design** that provides stability and safety in any training space.
Built with **compact steel heads** and a **hard chrome handle**, they deliver superior grip, balance, and long-term durability.
Made from **high-resistance PEV material**, they are **odor-free, eco-friendly, and built for professional use**.
Perfect for **commercial gyms, performance centers, and functional training studios**.

Product description:

O’Live Pro Style Elite 12-Sided Dumbbells – Anti-Roll Design, Maximum Durability, and Eco-Friendly Innovation

The **O’Live Pro Style Elite 12-Sided Dumbbells** are our most advanced and versatile dumbbells to date.
Their **12-sided anti-roll design** provides superior stability and safety, while the **solid steel heads** (instead of cast iron) make them **more compact and perfectly balanced**.
Each dumbbell features a **34 x 150 mm hard chrome handle**, ensuring long-lasting protection and an ergonomic, secure grip.

The **matte finish** gives them a sleek, professional appearance, while the **bright weight markings** allow for quick and easy identification — ideal for high-traffic gym environments.

Eco-Friendly PEV Material

Built from **PEV (Polymeric Elastomeric Vinyl)** — an innovative, eco-friendly material that's **stronger and more durable than rubber** — these dumbbells resist **sweat, moisture, and oils**, maintaining their integrity even after years of heavy use.
PEV is **odor-free and environmentally safe**, ensuring a cleaner and more sustainable workout experience.

Key Features
