

O'Live Hi Temp Olympic Rubber Weight Plate, 20 kg

O'Live Hi Temp Olympic weight plates are designed for Olympic lifting and cross training. This 20 kg plate is sold individually.

Product description:

Made from a recycled rubber blend with a stainless-steel centre ring, the O'Live Hi Temp 20 kg plate has a standard 45 cm Olympic outer diameter. It is quieter than traditional bumper plates, with a thicker profile and greater bounce. Raised coloured numbering makes the weight easy to identify. A practical plate for Olympic weightlifting and cross training. Sold individually.

Weight: 20kg
