Battle Rope With Nylon Case and Protector O'Live

In the world of fitness, **O'Live Fitness** Combat **Ropes** stand out as an essential element of a complete workout. Their innovative design and high-quality materials offer dual benefits, improving your cardiovascular endurance while strengthening your grip, upper body and activating your core. Immerse yourself in a world of challenging and effective exercise with our ø 38 mm braided polyester battle rope.

Product description:

Intense Cardiovascular and Grip Strength:

Experience the intensity of cardio training while working on grip strength, a dynamic duo to improve your physical endurance. The O'Live Fitness battle rope challenges you to reach new levels of performance and endurance.

Core Exertion and Coordination:

Core effort is key in every movement executed with our battle rope. The coordination required to keep the core as the engine of the movement not only improves your abdominal strength, but also adds a dimension of stability and balance to your workout routine.

Durable Design and Comfortable Grip:

Made of ø 38 mm polyester, our battle rope offers durability and strength. The non-slip rubber grip ends provide a comfortable and secure grip, preventing any interruptions during your workout. The nylon sheath not only enhances the rope's appearance, but also ensures its longevity.

Extra Warranty

The new battle rope includes a protector to prevent premature wear of the ropes when passing through the rings.
