

Simple Dartboard O'Live Fitness, column width 160 mm

Versatile Targets for Effective Workouts

Optimize your workouts with our targets, **designed to easily mount on any O'Live Fitness column**. With a simple installation, you can **attach the target to a 10' (270 cm) FCS column**, achieving a **throwing height of 10' (305 cm)**, which is the standard recommended height for men. This feature allows your training sessions to be more challenging and effective, improving your throwing skills and coordination.

Product description:

Three Versions for Every Need

Our targets are **available in three different versions**, adapting to your specific needs. **You can choose to mount them on an 80 mm deep column or crossbar, on a 160 mm deep column**, or on the end of a sky. This flexibility ensures that you can integrate the targets into your training space in the way that best suits your workout setup and style, providing **options for all levels and types of training**.

Compact and Functional Design

Measuring 70 x 10 x 24.5 cm, our targets offer a compact design that doesn't take up much space, making them an **ideal choice for gyms with limited space**. Their sturdy construction ensures durability and resistance to heavy use, allowing you to focus on your workouts without worrying about the quality of the equipment. Elevate your routines and reach your goals with this must-have accessory.
