

Double Dartboard O'Live Fitness, for extremes

O'Live Double Wall Ball Throwing Support for Frame Ends - Total Coordination and Accuracy"

Product Description: The **O'Live Double Wall Ball Throw Stand** is the innovative accessory designed specifically to improve your coordination and accuracy in functional ball or wall ball throwing. This accessory is a must-have for cross training centers or functional training areas, offering an effective solution to optimize your workouts.

Available in different support options, this accessory is compatible with a variety of O'live crosstraining and functional training cage models. In addition, it fits perfectly with O'live's half rack and rack options, ensuring complete and versatile integration into any training environment.

Improve your performance and take your wall ball throwing to the next level with the **O'Live Double Wall Ball Throwing Rack**. Transform your training space with the precision and quality that only O'Live can offer!

Product description:

The **O'Live Dual Targets for Ball Training** provides two precise targets for your training sessions, adapting to the different needs of the center and its users. This essential accessory is designed to improve your ball throwing skills, offering a versatile and effective solution for your training sessions.

Designed to fit the end of the sky or cantilever (ES32802.00), this accessory is compatible with O'live's Functional Plus Wall and Bridge cages, ensuring seamless integration into your training setup.

With dimensions of 24.5 x 22.5 cm each, these targets provide clear and defined targets for your throws. The overall dimensions are 24.5 x 67.5 cm, offering a suitable size for your training area. Made of steel with a sleek black finish, these targets ensure durability and strength with every use. Screws are included for a secure attachment system and easy installation.
