#### Product description:

Outstanding features:

- **Modular Versatility:** Basic module with expandability through available 1.1 or 1.7 m wide extensions to fit your space and needs.
  - **Simple Installation:** Robust, functional and easy-to-install design, ideal for any training environment.
  - **Unmatched Stability:** 80x80x3mm columns ensure superior rigidity and stability. Bars suitable for pull-ups, with a diameter of 32 mm and a thickness of 3 mm.
  - **Generous Dimensions:** Width of 1.1 m, total depth of 194 cm and height of 270 cm, providing ample space for your routines.
  - **Elegant Design:** RAL 9005 textured black finish, which adds a modern and sophisticated touch to your gym.
-

- 
- **Secure Fixing:** Must be fixed to the floor or wall, includes standard screws. Consult for details.
  - **Available Accessories:** Wide range of accessories to expand the training options for your users.
  - **Athlete Friendly:** 1.1 m is the ideal distance from the module to attach weightlifting bars.

Extensions Available:

- **FCS O'Live Basic Extension, Short (ES18801.01):** 2 pillars in 1.1 x 1.94 m format
- **FCS O'Live Basic Extension, Long (ES18802.01):** 2 pillars in 1.7 x 1.94 m format

Transform your training space with the O'LIVE FCS BASIC, the modular station that grows with you and adapts to your needs.
