FCS Modular FCS Station O'Live Fitness Plus Optimized

O'Live Fitness FCS OPTIMIZED Modular Training Station - Compact and Efficient

Product Description: The **O'Live Fitness FCS OPTIMIZED Modular Training Station** is the perfect solution for those looking to maximize their space without sacrificing workout quality. This modular system adapts to each client's requirements, offering a sturdy and safe structure of professional quality.

The **OPTIMIZED** model has a total depth of 84 cm, providing an efficient training space with a minimal footprint, ideal for small spaces without compromising functionality.

In addition, **FCS PLUS** stations allow you to take customization to another level, with the option to add monkey bars and pull-up bars with different grips, perfectly adapting to your training needs.

don't wait any longer to optimize your routine! The **O'Live Fitness FCS OPTIMIZED Modular Training Station** is the perfect choice for an effective workout in any space. Improve your performance with equipment designed to fit you.

Product description:

Main features:

- **Limitless versatility:** With widths of 1.1 and 1.7 meters, the modular station adapts to any training space.
- **Compact and efficient design:** Total depth of 84 cm, maximizing the interior space and minimizing the occupied surface.
- **Maximum stability structure:** 80x80x3mm columns guarantee unmatched rigidity and stability. Bars suitable for pull-ups, with a diameter of 32 mm and a thickness of 3 mm. 80x80x3mm crossbars for greater stability, allowing other accessories such as pull-up bars, carabiners with eyelets, etc. to be attached.
- **Total customization:** Compatible with a wide range of accessories, including monkey bars and pull-up bars with different grips.
- **Easy installation:** Easy to assemble and attach to the floor or wall, includes standard screws (consult for more information).
- **Finish:** RAL 9005 textured black
