

FCS Modular Wall Station O'Live Plus Optimized

O'live Fitness **OPTIMIZED** FCS Modular Wall Training Station - Compact and Efficient

Product Description: The **O'Live Fitness FCS OPTIMIZED Modular Wall Training Station** is the perfect choice for those looking for compact and efficient training equipment. This modular system, adaptable to each client's requirements, combines a sturdy and safe structure with the professional quality that O'Live Fitness is known for.

The **OPTIMIZED** model has a total depth of 28 cm, offering indoor training space and occupying a minimal footprint. It is ideal for small spaces, allowing a complete workout without sacrificing the space available in your home or gym.

FCS PLUS stations take customization to the next level, allowing you to add monkey bars and pull-up bars with different grips. This allows you to tailor your training station to your specific needs, ensuring a personalized and effective workout experience.

optimize your space and your workout routine with the **O'Live Fitness OPTIMIZED Modular FCS Wall Training Station!** Perfect for a complete and efficient workout anywhere.

Product description:

Main features:

- **Limitless versatility:** With widths of 1.1 and 1.7 meters, the modular station adapts to any training space.
- **Compact and efficient design:** Total depth of 84 cm, maximizing the interior space and minimizing the occupied surface.
- **Maximum stability structure:** 80x80x3mm columns guarantee unmatched rigidity and stability. Suitable for pull-ups, with a diameter of 32 mm and a thickness of 3 mm. Bars of 80 x 80 x 3 mm for greater stability, allowing other accessories such as pull-up bars, carabiners with eyelets, etc. to be attached.
- **Total customization:** Compatible with a wide range of accessories, including monkey bars and pull-up bars with different grips.
- **Easy installation:** Easy to assemble and attach to the floor or wall, includes standard screws (consult for more information).
- **Finish:** RAL 9005 textured black
