

Converter 160 to 80 O'Live Fitness

160 to 80 Column Adapter Maximizes the Versatility and Safety of Your Fitness Equipment

want to take your workout to the next level? Introducing the **Column Adapter**, meticulously designed to optimize your workout experience.

Product description:

This innovative accessory is specially created to adapt other accessories that require 80 mm columns, such as the jumping platform or the dips bar, to 160 mm columns, providing a safe and stable mounting.

Imagine the freedom to adjust your accessories to different heights, giving you unparalleled customization for workout routines.

From beginners to experienced athletes, this adapter is a must-have addition to your functional equipment.
