Functional Plus Self-Supporting Station 1,7 m O'Live

O'Live Functional Plus Wall 1,7m: Your Compact and Versatile Fitness Center

Discover the Ultimate Equipment for Your Functional Training

The **O'Live Functional Plus Wall** is the most complete and versatile training equipment you'll find on the market. Designed for those looking to maximize their space without compromising the quality of their workout, this fitness station is perfect for strength and functional fitness exercises, as well as serving as a storage unit.

Product description:

Unmatched Quality and Stability

Manufactured to the highest quality standards, the O'Live Functional Plus Wall guarantees stability without the need for wall attachment, eliminating instability concerns. Its 80x80x3mm attachment columns and holes every 50mm ensure a perfect fit for all levels of training.

Adaptable to Your Needs

Thanks to its intuitive fastening system, you can adjust the shelves and accessories according to your needs. Available in two widths, 1100 mm and 1700 mm, this training station is completely modular, allowing for expansions according to your space and goals.

Compact and Functional

With a compact design, the O'Live Functional Plus Wall fits into any space, making it easy to integrate into your home or personal gym without worrying about size or weight. Plus, it offers multiple storage options and an array of accessories to fit your specific needs, providing even more possibilities for your workout routine.

Customization to Your Style

Customize your O'Live Functional Plus Wall with your favorite color and logo. Not only will this equipment help you improve your fitness, but it will also fit your personal style.
