

Basic Functional Station

O'Live Fitness

O'Live Fitness Basic Functional Station

Discover the **O'Live Functional Basic Rig**, the multifunctional training structure that adapts to your needs and accompanies you through every challenge. Designed to support a wide variety of strength and conditioning exercises, this self-supporting structure gives you the freedom to train wherever you want, without the need to attach it to the wall or floor. You'll only need to attach it to the floor if you use cantilevered accessories or perform swinging exercises.

Product description:

The **O'Live Functional Basic Rig** stands out for its versatility and ease of installation in any space, whether indoors or outdoors, thanks to its weather-resistant coating. Manufactured in the European Union with high-strength materials, this structure is designed to withstand intense and frequent workouts, guaranteeing durability and superior quality.

Its modular design allows you to customize the frame to your training goals, making it perfect for any type of strength and conditioning exercise. Whether you practice barbell, rings, pull-ups, push-ups, dips and more, the **O'Live Functional Basic Rig** adapts to your needs. Ideal for Cross Training boxes, its flexible design fits any WOD.
