
Muscle Clamp 50 mm O'Live Fitness

Solid Plastic Grips for 50 mm Bars

Optimize your workout with our solid plastic grippers specifically designed for 50 mm diameter bars. These grippers are the ideal solution for those looking for safety and speed in their routines. With a simple turn of the handle, you can close the grippers in seconds, allowing you to focus on what really matters: your performance.

Product description:

Thanks to their rubber inserts, these grippers ensure a firm bond without damaging the bar surface. This feature not only prolongs the life of your equipment, but also enhances your training experience by preventing unwanted slippage during lifts.

The sturdy and durable design ensures that the grippers will maintain their effectiveness even during the most intense workouts. Plus, they are sold in pairs, allowing you to always have a set on hand to alternate between different bars and exercises.

Transform the way you train. Don't let inadequate equipment hold you back. Invest in these solid plastic grippers and enjoy the peace of mind they offer in securing your load - order today and experience the difference in your workouts!
