
Half Rack Elite

Half Rack Elite: **136 x 156 x 246 cm** rack for **professional gyms**, with robust structure and textured epoxy coating.

Product description:

Half Rack Elite (136 x 156 x 246 cm) High Performance Training Rack for Professional Gyms

The **Half Rack Elite** (136 x 156 x 246 cm) is a high performance training rack, ideal for **professional gyms** and **intense workouts** at home. Manufactured with high quality materials, it has **80 x 80 mm** side columns and **3 mm thick**, which ensures a sturdy and durable structure. Its design includes anchor points and slots for easy installation of bar supports and safety systems, providing a safe and efficient training experience. The **Half Rack Elite** is coated with textured black epoxy paint, which gives it excellent resistance to wear and tear, making it ideal for intensive use. Its modular structure also allows for the addition of **O'Liveit's** modular structure also allows you to add accessories, making it a versatile option for customizing your training station.

Note: j-cups are not included in the image.
