Power Disk Elite Barbell Collars, 30 mm

Power Disk Elite collars for 30 mm training bars, with non-slip rubber and an easy-to-use locking mechanism. Durable barbell accessories for holding weight plates in place during strength training.

Product description:

Power Disk Elite Barbell Collars, 30 mm Practical barbell collars for 30 mm training bars

The **Power Disk Elite Barbell Collars, 30 mm** are designed for Power Disk bars with a 30 mm diameter, helping keep weight plates in place during strength training. Their simple, robust locking mechanism allows quick fitting and removal, making them practical for frequent weight changes in demanding workouts. Non-slip rubber improves contact with the bar and helps maintain a firm hold. Made from durable materials, these collars are suitable for professional gyms and home training spaces. Check your bar's diameter before use: these Power Disk Elite Barbell Collars, 30 mm are intended for compatible 30 mm bars.
