

O'Live Fitness Competition Bumper Plate, 25 kg

Product description:

O'Live Fitness Competition Bumper Plate for Strength Training

Training performance: The competition bumper plate from O'Live Fitness is designed for athletes and gym users who want a practical plate for strength training.

Durable construction: A reinforced steel core and premium virgin rubber provide a robust structure for regular lifting sessions.

Progressive loading: This 25 kg plate lets you add load to compatible barbells for varied strength training routines.

Controlled bounce: The high-density construction of the O'Live Fitness competition bumper plate helps minimise bounce, supporting a more controlled lifting environment.

Easy weight identification: The coloured virgin rubber makes the plate's weight easy to recognise, simplifying equipment selection between sets.

Strength training equipment: This 25 kg

bumper plate complements your weightlifting and strength training setup with a durable design from O'Live Fitness.

Specifications: Thickness: 5.5 cm. Sold individually.

Weight: 25kg
