Pesas Tobilleras O'Live Fitness 2kg

O’Live Ankle Weights – Adjustable, Durable and Hygienic Resistance for Functional Training

Adjustable ankle weights ranging from 0.5 to 6 kg, featuring durable materials and hygienic construction. Secure **Velcro fastening** ensures a comfortable and customized fit. Ideal for **toning, functional training, and rehabilitation programs**.

Product description:

The **O’Live Professional Ankle Weights** are designed to add controlled resistance to **toning, endurance, and functional training** exercises. Available from **0.5 kg to 6 kg**, these weights are built for **intensive use** in **fitness centers, physiotherapy clinics**, and **personal training sessions**.

Manufactured from **high-strength technical nylon**, they resist sweat absorption and unpleasant odors, ensuring a **clean and hygienic experience** even during prolonged use.

Professional Design and Comfort

- **Durable nylon exterior** – resistant to wear, sweat, and deformation
- **Adjustable Velcro fastening** – ensures a secure and comfortable fit around ankles or wrists
- **Metal eyelet** – ideal for hanging or storage on professional racks and wall panels

- **Sold in pairs**
- **Color:** Black (discreet and professional finish)

Note: Heavier models (3–6 kg) have larger dimensions and may not perfectly contour to smaller ankles.

Common Professional Applications

- Progressive **muscle toning** in group or personal training sessions
- **Rehabilitation and reconditioning** in physiotherapy programs
- **HIIT, core, and functional training** with additional resistance
- **Glute, abductor, and core stability** exercises
- Improvement of **localized endurance and proprioception**
