

O'Live EVOQ Pump Weight Plate Set, 18 kg

O'Live EVOQ Pump Weight Plate Set — Versatile Equipment for Functional Training and Group Fitness

O'Live EVOQ Pump set with ergonomic triple-grip plates and premium TPE coating. Total weight: 18 kg. Use as weight plates or handheld dumbbells. Sold as a set.

Product description:

The **O'Live EVOQ Pump Weight Plate Set** brings versatility to group strength classes and functional training areas with its **ergonomic, multifunctional design**.

Each plate features a **balanced central handle**, allowing it to be used as an individual dumbbell for unilateral exercises or strength circuits. It also includes **two easy-grip outer handles**, suitable for two-handed movements such as kettlebell-style swings, overhead presses and dynamic carries.

The **premium TPE (thermoplastic elastomer)** coating provides a surface that is **odourless, comfortable to touch and resistant to wear**, making it practical for frequently used group fitness equipment.

This set is designed as an **all-in-one solution** for pump-style classes, functional training, toning sessions and HIIT circuits.
